

Appendix C - Computer and Internet Requirements

It is the Candidate's responsibility to have suitable computer equipment and internet equipment.

In order to write the electronic examination you must meet the following **minimum** requirements:

You will need two devices:

1. A mobile device (smartphone; Ipad; tablet)/secondary device (chromebook) will be used as the primary video device used to communicate with the proctor. You will remain connected to the proctor for the entire examination. Google Meet is required on this device (available for free download at your app/play store). This device may be connected to your wifi.
 2. A computer you have administrative rights on, with a working webcam connected to a stable internet connection. You will use this computer to take your examination on. You are not able to use a Chromebook for this device. You will be video connected to the proctor on this screen as well.
- **Google Meet needs to be installed on your mobile prior to the examination date.**

Internet Speed:

1. To Test your Internet:
 1. Open a browser page (Chrome, Firefox, Edge)
 2. Go to <http://www.speedtest.net/> by entering that in the browser bar as long as you have over 1 MBPS upload and download you will have sufficient internet.
